## OELA SESSION AT THE NATIONAL SCIENCE TEACHERS ASSOCIATION 2012 NATIONAL CONFERENCE

### Supporting English Learners in Science: Strategies for Success

Classroom practitioners will share effective science instructional practices for English Learners (ELs) in this one-day workshop facilitated by the Office of English Language Acquisition, U.S. Department of Education on **March 28**. A major challenge for ELs in mastering science content is acquisition of the academic language reflected in science texts and other science instructional materials. This workshop is geared toward middle- and high school science teachers seeking to learn techniques for teaching inclusive lessons for English Learners, as well as administrators wishing to share this information with their teachers.

This workshop is being held in conjunction with the National Science Teachers Association 2012 National Conference in Indianapolis.. If you have any questions, please feel free to email [crystal.martinez@ed.gov](mailto:crystal.martinez@ed.gov) prior to the event. Registration can be accessed at the following link:
