REPORTING REQUIREMENTS

- Important Information
- Resources
Reporting Requirements

All NPD grantees must submit an annual performance report (APR) that provides the most current performance and financial expenditure information.

The APR must include:

- Performance outcomes related to the Government Performance and Results Act (GPRA) with numeric/percentage for annual targets
- Project-specific performance measures with numeric annual targets
- An annual budget that includes any carryover funds for the coming year as well as the report year budget (2 budget forms). Include a budget narrative for each budget submitted

The Department uses these data in making annual continuation awards.
Performance Measures: Under Government Performance and Results Act (GPRA), Federal departments and agencies must clearly describe the goals and objectives of programs, identify resources and actions needed to accomplish goals and objectives, develop a means of measuring progress made, and regularly report on achievement. One important source of program information on successes and lessons learned is the project evaluation conducted under individual grants.

Measure 1: The percentage of project-specific annual goals the program met.

Measure 2: The number of pre-service program participants enrolled annually.

Measure 3: The unduplicated number of in-service program participants served annually.

Measure 4: Under measures 2 and 3, the number of participants who are making progress toward becoming State certified, licensed, or endorsed in EL instruction and the number of participants who have become State certified, licensed, or endorsed by the end of the five-year project period.
**Logic Model** (also referred to as theory of action) means a well-specified conceptual framework that identifies key components of the proposed process, product, strategy, or practice (i.e., the active “ingredients” that are hypothesized to be critical to achieving the relevant outcomes) and describes the relationships among the key components and outcomes, theoretically and operationally. (34 CFR 77.1.)

Note: Applicants may use resources such as the Pacific Education Laboratory’s Education Logic Model Application ([https://ies.ed.gov/ncee/edlabs/regions/pacific/elm.asp](https://ies.ed.gov/ncee/edlabs/regions/pacific/elm.asp)) to help design their logic models.
